**President's Report** (Barb Andrews)

- 1) Caretaker Cabin Repairs - The front porch needs some repairs and will be done next year. Mark and Paul have looked at it and it just needs to be jacked up and reattached to the cabin. Also, a new toilet will be put in and basic flooring. Alan's contractor who is working on his cabin, will coordinate with Gene for the work to be done on the caretaker's cabin.
- 2) Satellite Phone Rental, Sierra Electronics, Reno (August through October, \$75/mo. (\$225) + tax, \$1.50/min. air time) - Gene is now using the satellite phone and the Association is renting it for the months of August, September and October. Fortunately, we haven't needed it for an emergency situation.
- 3) Emergency Plan (Lou Ginocchio, Gene Stewart) - Gene and Lou, and possibly the Forest Service Representative, will try to come up with a protocol for an emergency situation where Gene would use the satellite phone and how everyone would communicate with him. One example, is that Gene would call ahead to alert the hospital that someone would be coming in.
  - a. Cooper's Meadow, helicopter landing area - Hap Heiberg has refreshed the tires with Day Glow Orange spray paint.
- 4) Cabin inspections and tree tagging - Barb got a call from our Forest Service Rep., Soai Talbot, and he is still under stay at home orders. He is able to only do minimal work at this time. He still has the list of hazard trees and hasn't been able to come out to tag them. If anyone is really concerned, the board recommends that you write a letter to our Forest Service Rep.
- 5) No Trespassing / Warning Signs for Cabins - Alan has about 25 extra signs available if anyone needs one.
- 6) SLHOA 100<sup>th</sup> Anniversary T-Shirts - Barb has order forms from Kim Andrews for Silver Ware apparel. You can also order online. The anniversary shirts are navy blue.

#### Water and Sanitation (Barb Andrews for Scott Carroll)

- 1) July Outhouse Pumping - The outhouse pumping in July went well, but not everyone prepped properly. Was a nasty job, but was completed in a day. Barb encouraged everyone to use the Rid-X maintenance. Gene commented that Foraker's and McNany's outhouses had been properly prepped and had the best outcome for pumping.
- 2) Lake Water Testing, Fall 2020 - Scott has done a great job testing the lake in the past, but is unable to do the testing this year. The Board is recommending that we test the lake every 2 to 3 years. Tara reminded everyone to not to use soap in the lake. If anyone sees any concerns with the lake, the Forest Service can come out and do testing. Barb will find out if the Forest Service can put signs stating no bathing in the lake. \*Note: Immediately following the meeting, Hap Heiberg offered to conduct the lake water testing this year. Gene will accompany him to learn more on how it's done.

#### Board Member Terms (Rob Yelland)
